WORK & LEADERSHIP EXPERIENCE

PolicyCON

Front-End Web Development Intern

Remote

September, 2023—December, 2023

- Redesigned webpages using Figma, enhancing UX/UI with intuitive design, colour theory, typography, and layout, while ensuring WCAG compliance for accessibility.
- Built responsive features in React, TypeScript, and TailwindCSS, optimising User Sign-up and Profile editing components for performance.
- Refactored codebase, improving maintainability and readability across components.
- Authored technical documentation covering functionality, specifications, and integration to enhance usability and accessibility.
- Tested Register User and Login components with Cypress, identifying issues to improve site reliability and stability.

Nottingham Trent University Design Industries (NTUDI)

Lead Web Designer and Developer, '22 Cohort

Nottingham, United Kingdom

September, 2022—June, 2023

- Led website team, strategically assigned tasks, resolved challenges, and consistently met milestones for timely deployment.
- Collaborated with Branding to align designs with annual themes, creating cohesive and engaging webpage layouts.
- Mentored team in data handling, debugging, and UX/UI, boosting development efficiency and achieving weekly targets.
- Created 120 student profiles within project deadlines, balancing academic and professional responsibilities.
- Developed JavaScript feature for project video integration, optimising layout for absent videos and reducing load times by 25%.

dcloud9 ltd.

Junior DevOps Engineer

Remote

November, 2022—May, 2024

- Developed backend APIs with Python, GraphQL, AWS Lambda, and DynamoDB, streamlining user data management in the Admin App and boosting efficiency.
- Automated processes with Terraform to optimise communication between the AWS console and Service Workbench, streamlining infrastructure management and improving deployment speed.
- Contributed to developing the Admin App with APIs using AppSync, ensuring reliable data querying and manipulation from DynamoDB through testing, enhancing stability and performance.
- Contributed to daily stand-ups and sprint updates, fostering team collaboration and strategic task management while enhancing problem-solving and critical thinking skills in an agile environment.

EDUCATION

Trilogy Skills for Life

16-week bootcamp in Front-End Web Development
